

Motor Vehicle Safety In The Surface Transportation Safety Improvement Act Of 2005

42,800 Highway Fatalities in 2004

4th year in a row that deaths have exceeded 42,000

10,296 Rollover Fatalities in 2004

SUV rollover deaths climbing with no end in sight

In 2004, passenger vehicle occupant fatalities increased once again and sport utility vehicle (SUV) occupant fatalities are still climbing with no end in sight. Annual SUV rollover fatalities have increased by 238% from 1992 to 2004. More than half (56%) of all occupant fatalities were not restrained. Data based on "2004 Projections," NHTSA (April 21, 2005)
